WRITING UP YOUR FINAL CONCLUSIONS

Minimum materials required:

- 1 Internet-connected computer per team
- *MSIP Final Report Outline*: 1 per student (students should already have this handout)
- *MSIP Archived Team Results Outline* (optional): 1 per team

Students should discuss their completed *MSIP Final Report Outlines* in order to ensure they have included all the information that related to the research they have done. It is also important to ensure their information is consistent among each team member.

OPTIONAL: If students wish to potentially publish their results on the MSIP website, they can do so by filling out the *MSIP Independent Research Team Results Form*. This form should be filled out by students and submitted by the teacher to **msip@asu.edu**.

Download the *Team Results Outline*.
